

China (Beijing) International Exhibition of both Polyurea Spray Technology and Its Application in 2009 (2009 SPUA)

CALL FOR PAPER

Introduction:

In order to improve the overall level of Chinese Spray Polyurea Elastomer Technology (SPUA Technology), strengthen the application of scientific research findings, promote all kinds of new techniques, new skills, new products, new equipment, China (Beijing) International Exhibition of both Polyurea Spray Technology and Its Application in 2009 (2009 SPUA) will be held in Beijing World Trade Centre during Feb.23 to 25, 2009 with the purpose of serving the industry and developing the technology of the industry. China International Center For Economic And Technical Exchanges is the host for this conference which is undertaken by Beijing Kaiqi Times Exhibition Service Center and Beijing Huanyalian Exhibition Service Co., Ltd. This conference will provide a comprehensive platform of display, negotiation and exchange for the enterprises to fully reflect SPUA production, manufacture, application and research and development in Asia.

2009 SPUA will fully show the raw material products, semi-finished products and finished products of SPUA, products and technique show and application exhibition and hold the technology exchange seminar to fulfill the Chinese SPUA market integration and entry to the international SPUA, so that make new contributions to the Chinese SPUA prosperity.

Theme: science and technology, energy saving, creation

Time: Feb. 23 to 25, 2009

Place: Beijing World Trade Centre (No.1 JianGuoMenWai Avenue Beijing)

Scope of paper:

1. Study on the Research Focus of the Spray Polyurea Elastomer Technology
2. Evaluation and Direction of the Polyurea Market
3. Investigation Report on the Spray Polyurea Elastomer Technology of Foreign Enterprises

4. Resin, Chain Extender, Pigment and Filler, and all kinds of additives for the Spray Polyurea Elastomer Technology
5. Spray Equipment and Fittings for the Spray Polyurea Elastomer Technology
6. Applications, Problems, Experience and Conclusion of the Spray Polyurea Elastomer Technology in different fields
7. Technical Standard and Methods for the Detection and Analysis of the Spray Polyurea Elastomer Technology, Test Equipment
8. Gap between Chinese and Foreign Spray Polyurea Elastomer Technology and the Eliminating Methods
9. Personal Safety and Protection in Application
10. The Reason for the Defect Formation in Coating and Solution

Requirement of Paper:

1. No more than 5,000 words, A4, input by Word
2. Please list the author, working unit, address, postcode, telephone for contact. If the contact person is not the first author, please note that.
3. The author shall be responsible on his/her own for the matters of the secrecy, signature and infringement disputes, etc.
4. Format of Paper

(1) The title of the paper should not be more than 20 Chinese characters and the English title should be more than 10 concrete words. Avoid using the nonstandard abbreviations, characters, symbols, etc.

(2) Chinese abstract should not be more than 300 words; English abstract should not be more than 250 concrete words.

(3) 3-8 key words set off by a semi-colon in Chinese and English

(4) All levels of Headings within the body of the text should be numbered consecutively in Arabic numerals. Dots should be used between the numbers in the second level and third level headings, for example "1", "1.1", "1.1.1". Headings should not be more than 4 levels. Preface and summary should be numbered 0.

(5) Diagrams should be after the text that mentions it at first time, and numbered consecutively. Drawing line should be clear. Photos should be original pictures.

(6) Use national legal unit of measurement, the name and symbols should be national general symbols.

(7) Reference should be numbered in using order, the format is following;

Journal: [No,] author. article title[J]. name of the journal, edition year, volume number or issue number. beginning & end page.

Monograph: [No,] author. book name [M]. edition number. publishing place. publisher. date of edition, beginning & end page.

Proceeding: [No,] author. article title [P]. editor name. collection name [C]. publishing place. publisher. date of edition, beginning & end page

Patent: [No,] applicator. patent name[P]. nation of patent: patent number, issue date

Standard: [No,] standard number. standard name [S]

(8) For details, refer to “Shanghai Coating”

Excellent papers will be compiled in the proceeding of the conference and be communicated and chosen for award.

Deadline: E-mail to the organizing committee before Jan. 20, 2009.

Note “2009’SPUA Paper”。

Welcome to contribute actively!

Please E-mail the paper to:

Contact person 1: Prof. Huang

Address: spua@163.com

Contact person 2: Ms. Su

Address: qin_su@shcoating.com
